Key Sectors and Opportunities in Mexico

Mexico is in the process of modernizing some of its sea ports, highway toll collection systems and security systems in detention centres and public facilities.

Strong population growth and years of underinvestment in the sector have spurred strong demand in recent years for water utilities in Mexico.

One-third of all Mexican Government revenues consist of oil and gas revenues. PEMEX needs 200 vessels in the next 10 years.

Key Sectors and Opportunities in Mexico

The automotive sector plays a crucial role in Mexico's economy, accounting for roughly 3% of GDP and 14% of manufacturing output. We see similar strong growth in the aerospace industry.

On the basis of a growing population and a large proportion of young people, we expect strong consumption in the F&B, furniture, fashion/ textiles and IT product sectors in Mexico.

Mexico is one of the top ten most popular tourism destinations in the world, with more than 20 million visitors annually.
